SIIM

Leading Imaging Informatics

Imaging informatics is a rapidly growing field that uses information technology to improve the efficiency and accuracy of medical imaging services within a healthcare network. Simply put, it allows critical healthcare information to be available anytime and anywhere. The **Society for Imaging Informatics in Medicine (SIIM)** is a global advisor and thought leader in imaging informatics with a focus on enterprise imaging, artificial intelligence, cybersecurity, infrastructure, and standards.

SIIM is a community of #imaginginformaticists who are united by their curiosity and commitment to advancing medical imaging through **INNOVATION, RESEARCH,** and **EDUCATION.** Our members include scientists, developers, vendors, imagingIT experts, and clinicians from around the world. If you share our passion to improve patient care through imaging informatics, **JOIN US!**

What Sets Us Apart

A trusted and safe place, **where users and vendors come together to accelerate innovation** in enterprise imaging.

The **go-to place for disruptive medical imaging technologies.** Our hackathons and challenges bring together the best and the brightest minds to innovate and collaborate.

Collaboration across all medical imaging specialties including cardiology, dermatology, ophthalmology, pathology, and radiology to harmonize and improve patient care.

Leader in cutting-edge research and strategies in healthcare IT. Our *Journal of Imaging Informatics in Medicine* is the premier resource on the latest advances in imaging informatics.

Career advancement through dynamic learning, conferences and inside access to thought leadership.

A diverse, inclusive and vibrant community **where we know your name!** Connect with peers and luminaries to make meaningful, life-long connections.

FOCUS ON GROWTH

KICKSTART YOUR IMAGING INFORMATICS CAREER WITH SIIM

FREE Courses & Conferences

Integrating Imaging Informatics (i3) Course - boost your knowledge with an interactive, high-level introduction to the field. Designed for residents at all levels.

National Imaging Informatics Course (NIIC) - build a solid foundation in imaging informatics. Perfect for 4th-year residents.

Landscape of Imaging Informatics Course - gain insights into the profession and learn how to harness your technical, clinical, and soft skills to become a leading imaging informaticist.

SIIM24 Annual Meeting & CMIMI24 Conference - connect with luminaries and peers and stay up to date on latest disruptions.

Volunteer Opportunities

SIIM Members in Training Committee - Join to learn, lead, grow, network, and gain access to valuable mentorship opportunities.

PII Textbook

Practical Imaging Informatics, 2nd Edition - Your comprehensive guide to PACS and imaging informatics, covering everything you need to know.

? Email Missy Thompson with any questions at mthompson@siim.org

FREE MEMBERSHIP
SIIM Member In Training

Designed for residents, fellows, PhD candidates and students.

- ✓ FREE registration for SIIM meetings, conferences, webinars and select courses.
- ✓ Scholarships
- ✓ Education & resources for trainees
